

TERRY EARTHWIND NICHOLS

Known as the Father of Repetitive Behavior Cellular Regression® (RBCR), Ambassador Terry works with people who are at their wits end. They know something is in the way of their success and they just can't put their finger on it. Amb. Terry is the Chairman of Evolutionary Healer, a global transformational performance improvement company. When he's not training his CR Practitioners online all over the world, Terry can be found doing intriguing interviews.

THE CR PROCESS

Reclaiming the original you

REPETITIVE BEHAVIOR CELLUAR REGRESSION® (RBCR)

After standing on the edge of a 28-story building, Terry heard a voice saying, "I have something for you to do." Within 6 months he had created a process that helps his clients find a forgotten memory from early childhood that has consistently been controlling their life and driving their behaviors. With RBCR, everything is in its place and one's entire life makes sense for the very first time in a long time. After leading a life of self-sabotage, Terry was relieved to get off of the proverbial Merry-Go-Round himself.

SUGGESTED QUESTIONS

Terry, what is your greatest fear around death?

Tell us your definition of repetitive behavior?

How does RBCR work?

Who is a good candidate for The CR Process®?

Why is it that your clients do not go into a trigger?

Where did Sigmund Freud leave off and where have you been able to get to in your work and research?
